What are Highwaymen Handicaps?

The purpose of HWM Handicaps is to spread the Thursday morning HWM rollup prize money across as many HWM as possible throughout the year.

The main point to note is that your HWM Handicap **ONLY** applies to **HWM Thursday morning rollups** that are **INDIVIDUAL** competitions (e.g. Eclectic Stableford, Elliott Cup etc.) So, for any HWM **team or pairs** Thursday morning rollup (e.g. Texas Scramble, Stableford Pairs etc.) then you use your WHS Playing Handicap.

- For HWM Thursday morning **INDIVIDUAL** rollups there will be two sets of results:

1. "**For the glory**" – the top scores based on WHS handicaps
2. "**For the money**" – the top scores based on **HWM Handicaps**

- "For the money" winners will have their HWM Handicaps cut by 3, 2 and 1 depending upon their place and the number of prizes.

- For HWM Thursday morning **Pairs or Team rollups** there will only be one set of results (based on WHS handicaps) and there are no handicap cuts applied to the winners.

Notes:

- HWM Handicaps are reset back to WHS handicaps twice a year (1st April & 1st November).

- You do not need to apply your HWM Playing Handicap on your scorecard for the vast majority of HWM competitions, recording your gross score per hole will suffice. GolfGenius will apply your WHS Playing Handicap and a member of the HWM committee will make any necessary HWM adjustments. The particular competition notes will advise.
