## As it happened .....

So , after we all scorched earlier in the week it was thankfully slightly cooler on Thursday . There was'nt as much need to drag a pallet of water around with you as had been needed on Monday and Tuesday - and indeed hats off to those who played in those record breaking temperatures - something to tell the Grandchildren - or indeed in certain cases Great Grandchildren.You always know when its bad when Rod Rigby surveying the pond on the 1st says very gravely " in my 30 years at this club I've never seen that pond as low as that " ..... mind you he still managed to lose his ball in the water !

My 4 ball also had Gerald " call me Rory " Bullock who sunk some unbelievable putts with one 50 footer on the 7th hole the pick of the bunch. We could only stand and applaud. How we managed to come last but one i fail to understand. Maybe its because we were 12 points behind the winning 4 ball who were 1 of only 2 teams who scored 7 stableford points on 2 holes. It was a really close run event and always good fun and despite having ghost players whom i am aware some people may query Well Done to the winning 4 ball.

## Wedding Bells

Not often we get wedding announcements on the PN's but lets all join together in wishing Peter Deane many many congratulations on his marriage, next week to Carol.

All the best from the HWM.
