

HWM Stableford (2 from 4)

The HWM who braved the elements and there were 44 who did with 5 in the 9 hole and 12 in the match versus Guildford displayed remarkable resilience during the (at times) torrential rain. One group (who will remain nameless) decide to throw in the now very wet towel after the 9th hole but Geoff Eldred being made of sterner stuff was having none of that defeatist talk and marched his 4 ball back onto the course. It's fair to say their points total on the back 9 showed how committed they were to the competition ! So it was the last group teeing off with a balanced score of 40 on the front and back 9 who took the honours. Did they get the better off the weather ? Probably more to do with the fact that the team in 2nd place blew their lead on the 17th with just 2 pts versus the winning teams 5 pts. This team had a blind played in Jim Chivers - sorry Jim the £7.00 winnings goes to the Captains Charity.

InterClub match

Facing the same difficult conditions the match was delayed by 15 minutes during one deluge but the team played with some style and against a team that won 4-2 on their course the HWM came away with a 5.5- 0.5 win. **We now stand at Won 11 Lost 5 Halved 3**
