

Windlesham Golf

1 Competition 2 Winners ...Graham Woodfine Figurine

This was the 4th year for the Graham Woodfine figurine with all the delights of a medal competition. As it was we had 62 players in glorious conditions with some very fast greens and the usual smattering on tricky pin positions. A medal competition always serves up a mixture of results and this week was no exception with 8 double digit scores on some holes but conversely we saw 20 birdies - BTW hope that they were all entered into the birdie book ! On that tricky 1st hole from 62 players we only saw 1 player get a par - well done Emile :) The delights of this Trophy according to Graham is that the winner probably makes you "The best male Windlesham golfer relative to one's age - not an insignificant accolade to achieve at our time of life " So take a bow **Laurie Morse** who with a net 9 on countback wins the 2026 Trophy from **Peter Bennett** in 2nd place and **Peter Gray** in 3rd with net 11.

Turning our attention to the Medal Competition - and there he is again with a net 68 - **Peter Gray** who just sneaked in front of **Stuart Armstrong on net 71** and **Robin Tyler on net 72**. Given there were 62 players in the field on Thursday the payout is to those finishing in the top 5 positions.
